

Crabapple Academy

Junior Preschool

Preschoolers are full of energy, eagerness and curiosity. Creativity and imagination begins to blossom in every medium: dramatic play, art, storytelling, science and motor skills. Vocabulary and intellectual skills are expanding rapidly. We begin to see our preschoolers express ideas, solve problems and plan ahead.

Our curriculum is designed to challenge, interest and encourage our Junior Preschool children. Each child is taught to begin to think, reason, question and experiment. Positive self-concept is fostered when children make connections themselves, rather than simply hearing and reciting information. Some lessons include the entire group (music and story time for example) but much of the day is spent in small groups of about five children so that the students can work under the close attention of the teacher on fine motor skills, memory exercises, sequencing, patterning, phonics, etc.

Each week's curriculum is based on a weekly theme (ie: Famous People and Inventions, Wind and Kites, Sailors and Boats, Farm Animals, Seeds and Plants, etc). Each day we include the following activities: story reading and library time to encourage literacy, phonics and letter recognition songs and games, art

creating and appreciation activities, music, dancing and manipulative activities such as lacing cards (engaging small motor skills) and a math and science activity (such as counting bears or sorting shells).

To encourage group interaction and respect for teachers, peers and our country, each day our Junior Preschool begins with Circle Time. This is a time when the teacher guides the children to discuss the weekly theme, the date, the weather that day, etc. Junior Preschool kids then sing along to catchy songs featuring phonics, sign language, Spanish or letter recognition through use of letter flash cards.

Our Junior Preschool plays outdoors twice daily. We understand that at this age children need fresh air and plenty of room to run, so the Junior Preschool playground is large and full of wonderful gross motor activities such as slides, swings, tricycles and a large sand area. We understand that, in order to engage their small motor skills, children may have to get their hands in the sand, dirt and leaves and we encourage healthy outdoor play. If your child comes home with a little dirt on their clothes, we are confident they will also be wearing a smile on their face.

We anticipate and expect your child to learn a great deal in our Junior Preschool program intellectually, socially, emotionally and in gross and fine motor skills. We promise to make our curriculum fun and challenging. We also promise to make the Junior Preschool class atmosphere loving, respectful, kind and comfortable both for you and for your child.

"While we try to teach our children all about life, our children teach us what life is all about."

Crabapple Academy

Junior Preschool Class Schedule

6:30-8:00 AM	Centers* in classroom
8:00-8:30 AM	Breakfast
8:30-9:00 AM	Clean up, potty, free play
9:00-9:30 AM	Circle Time (Morning Announcements, Show and Tell, Weather, Menu, Calendar, Discussion of Theme)
9:30-10:00 AM	Outside Time
